**Re : Request for Trading Halt**

WestSide Corporation Ltd requests that its shares (WCL) be placed in trading halt while it confirms a level of underwriting for the exercise of its traded share options (WCLO) which expire on 31 March 2009. WestSide is concerned that while in the process of securing commitments for the underwriting, some market participants may become aware of the level of firm commitments to date from major shareholders and the general market.

WestSide considers the underwriting support to be material to the company's affairs, as there are 36,169,500 WestSide share options remaining to be exercised. The exercise of these options would increase the number of ordinary shares on issue by 48%, potentially raising \$18 million.

WestSide expects to be able to announce the level of confirmed participation from major shareholders and the level of committed underwriting in place within 48 hours.

WestSide is not aware of any reason why the trading halt should not be granted.

Yours sincerely
